

JASON M. HERRICK, DDS, INC
9911 Kennerly Road, Suite B
St. Louis, MO 63128
(314) 842-6200

Welcome to our practice. At the initial visit, as a service to our patients, all new patients will be given a comprehensive examination. A comprehensive exam includes: cancer screening of the head and neck, examination for cavities and defective restorations, periodontal screening for gum disease, examination of the TM joint and evaluation of the patient's bite. In order to properly diagnose bone loss, infections, tumors and cysts in the upper and lower jaws, a full-mouth series of x-rays will be taken.

We ask that if you have had a full-mouth series of x-rays at another office in the past five years, that you contact that office and have those x-rays sent to our office, prior to your initial visit. Your insurance policy could have a limitation on how often these x-rays can be performed and we do not want you to have to be responsible for the fee if current x-rays are available. Even if you have recently had x-rays at another office, new x-rays will be taken if the copies of x-rays are not of diagnostic quality.

Please complete both pages of the health history form and return to our office by mail or bring with you to your appointment. We also ask that you bring your insurance card with you to your appointment.

Payment is due at the time the services are rendered, we accept cash, check, Visa, Mastercard and Discover.

Thank you for choosing our dental office. We look forward to meeting you.

Sincerely,

Jason M. Herrick, DDS
