

February is National Children's Dental Health Month!

Oral health is such an important aspect of our overall wellness. Himm Family Dentistry wants all of our young patients to embrace this concept at an early age so they will be motivated to participate in their own oral hygiene. The American Dental Association's annual February Event gives us a prime opportunity to educate our youngsters, as well as allow them to have some fun. In celebration of dental health we are having a drawing for each age group. Each of the following 3 ways will give your child a chance to win.

1. Mail your child's completed (enclosed) activity sheet to us. Be sure their name is legible on the form.
2. Visit Himm Family Dentistry, P.C. on Facebook and "like" us!
3. Stop by the office with your child and let them receive a special dental prize bag.

Thank you for allowing us to partner with you in helping your child develop good oral hygiene.

Best wishes from your smile 😊 team at Himm Family Dentistry!
